screenrooms

"A clean, cool, and pest free place to relax."

You deserve it...

Enjoy Clean, Cool Comfort...

Have you ever moved indoors because of mosquitos or other annoying insects? Enjoy your morning coffee, afternoon nap, or evenings with friends in a *400 Series* screen room from Crest Aluminum. Sit back, relax in comfort, or entertain family and friends without worrying about undesirable weather. *400 Series* screen rooms keep the leaves and debris out while letting relaxing breezes and fresh air in. Take back your patio or deck and plan your next family gathering without concern. Make an investment in your enjoyment today and experience the great feeling of being outdoors with the comfort and convenience of being indoors. *400 Series* screen rooms are only available through an approved network of qualified dealers.

CREST ALUMINUM SCREEN ROOMS – FOR MORE ENJOYABLE OUTDOOR LIVING...

400

Signature
SERIES
screenrooms

Series 400 screen room with an ULTRA 700 Series Roof. The roof overhangs the front and side walls 6 to 12 inches for added protection from rain and sun glare. Optional skylites provide a bright sunlit space.

- **Durable & Low-maintenance!**
- **Quick, clean installation completed within just a couple of days.**
- **A smart investment that will add value to your home.**
- **No more leaves or debris blowing around your patio.**

Easily upgrade to extend your season!

Maximize the livability of your Crest Screen Room by converting it into a three season sunroom with the addition of either glass slider windows or vinyl glazed vertical 4-track windows.

Stronger & Longer Lasting than wood!

Options & Specifications

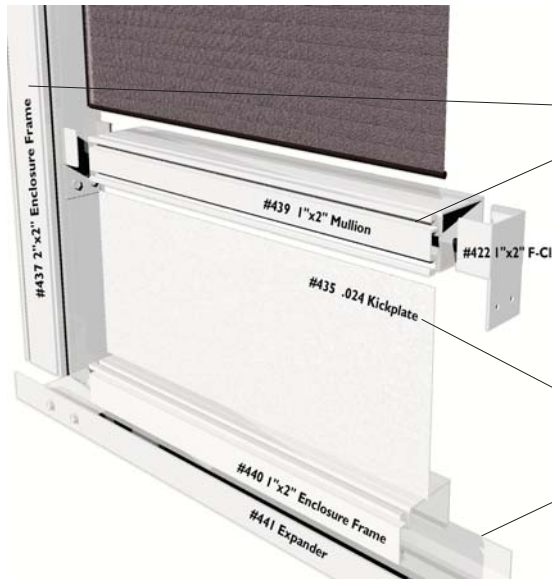

- Heavy Extruded 2" thick Aluminum Frames
- Extra deep serrated spline groove ensures screen fabric stays tight.
- Durable baked on enamel finish provides excellent corrosion, impact, and mar resistance.
- All extrusions are made of 6063-T6 .055" thick aluminum alloy for extra strength.
- Heavy .024 Aluminum creates a strong rattle-free kickplate or choose screened kneewalls for even more ventilation.
- Taller inside leg on base channel helps prevent water from backing up into the room.
- Heavy Duty 1 1/4" Thick Aluminum Doors

Four Attractive Colors

- White 
- Brown 
- Bronze 
- Sierra Clay 

A Quality Roof for a Quality Screen Room

Since 1985, Crest Aluminum has maintained a reputation for providing quality aluminum roof systems. Choose from two fully engineered styles: the non-insulated Ultra 700 Series, or the insulated Snap-Lock roof. Both roofs offer an array of color selections to compliment your screen room. Additional information and brochures are available for our roof systems.
